Si24LCD2L20CH Accessory

- The **Si24LCD2L20CH** accessory is used with all **Signal** boards that has an LCD port. This 2 line by 20 character display with back lighting uses the Hitachi HD44780 interface standard. A 14-pin male connector is added to the LCD PC board and a 10 inches long, strand, ribbon-cable with two 14-pin female connectors is included for rapid connectivity. The links to mechanical and electrical specifications data are given below: [Si24LCD2x20-Spec1](#) and [Si24LCD2x20-Spec2](#)
